

## WASHOFF™ WATER REMOVABLE INK MARKER

### PHYSICAL SPECIFICATIONS

- Dimensions: 5.3" L x 0.625" Ø (135 x 16 mm.)
- Mark width: bullet side 1/8" (3 mm.) - chisel side 3/16" (5 mm.)
- Contents: 13 cc.

### PRODUCT FEATURES

- Water Removable Ink for marking on metals, glass and other non-porous surfaces.
- Marks can be removed with water or power wash.
- Will not bleed through or ghost when the cleaned surface is primed or painted over.
- Heavy duty replaceable tips are reversible, user can choose between bullet and chisel point.
- Cap is easy to remove even while wearing gloves.
- Valve action mechanism allows user to control ink flow and prevents ink from drying when the cap is left off.
- Ink is suited to mark on a variety of oily surfaces without smudging.
- Marker fits in U-Holder™ to eliminate re-capping and keep markers in reach.

### TYPICAL USES

- Temporary marking of metals, glass, plastics parts, assemblies and tools.
- Marking of work-in-process and finished parts.
- Inspection and witness marks, quality control and coding applications, process identification.
- Marking of metals and glass whenever mark should be easily removed.

### SAFETY INFORMATION
