Stencil products are in U-Mark's DNA. Our building at 102 Iowa Ave. is where Ideal Stencil Machine Co. started in 1911. We have been involved in manufacturing and developing stencil products for more than 30 years.

Put our experience to work for you, and choose from our cost effective, high quality stencil products.

ST2020 Electronic Stencil Machine

- **Cuts stencils without operator assistance**
  Saves time and errors. Stencils can be imported from a mainframe computer and cut directly with ST2020. Information can also be input and saved using a simple Windows based software program included with the machine.

- **Heavy duty construction**
  Proven in steel mills and shipping yards around the world. ST2020 sets the standard for dependable and rugged performance. Hardened steel cutting unit and new metal hood.

- **Three times faster than plotter systems**
  Cuts crisp, clean oilboard stencils at an average of 0.4 characters per second. No "hanging chads" of oilboard. When a stencil is ready, it's cut automatically, while plotter systems require operator assistance.

ST24 Electronic Stencil Cutter

- **Versatile cutting system**
  Quality cutting and heavy down force allow ST24 to cut a wide variety of material types in an almost unlimited amount of fonts and symbols. ST-24 can cut up to 24" wide and character sizes from .25" and up. From Ultra-Cut II and Oilboard to Magnetic and Vinyl for signs.

- **Simple and cost effective**
  Stencil Works Software is simple to use and is written with industrial shipping room users in mind. 16 standard stencil fonts and 46 international shipping symbols. You may import any TrueType font and logos/ symbols from .ai/ .eps/ .dxf file types. Quick and easy automatic cut settings are controlled straight from the stencil cutter keypad.
