

The ST-24 cuts stencils and signs in an almost unlimited amount of fonts and symbols with an easy to use Windows based software.

ST 24 Electronic Stencil Cutter

- **Simple and cost effective**

Stencil Works Software is simple to use and is written with industrial shipping room users in mind. Comes with 16 standard stencil fonts, and 46 international shipping symbols. You may import any TrueType[®] font and logos/symbols from .ai/ .eps/ .dxf file types. Quick and easy automatic cut settings are controlled straight from the stencil cutter keypad.

- **Versatile**

Stainless steel cutting bed with self-healing cutting strip utilizes a tungsten blade that has up to 500 grams of cutting force. A wide variety of stencil and sign material can be cut on the large 24" cutting bed at speeds up to 45 ips (inches per second)

- **Stencil Materials**

From Ultra-Cut II and oilboard to magnetic and vinyl, you can cut projects from simple to the most intricate.

Ultra Cut II is a clay coated polyethylene material with a repositionable adhesive backing. Adheres to curved surfaces, may be re-used multiple times, and is resistant to stencil inks.

.011" Oilboard is heat resistant and durable.
