

Performance Meets Durability

Rely on U-Mark's premium inks for proven performance on difficult surfaces and consistently good indoor/outdoor durability.

PHD earned its title by being the best marker available to mark animal tags and difficult plastic surfaces.

Tekmark has fast dry-time, excellent performance on wood and plastics, and superior outdoor durability. It's a favorite marking tool for surveyors,

engineers, farmers, and shipping room workers because the marks are permanent.

M3 is a versatile all-purpose marker that has convenient features such as a reversible bullet/chisel tip and fast drying permanent ink.
